Anglo Swiss Resources Announces a New Work Program for its Historic Kenville Mine Property To Target a Large Copper, Gold, Silver, Molybdenum Anomaly

VANCOUVER, BC. May 29, 2007. Anglo Swiss Resources Inc. (TSX.V-ASW & OTCBB-ASWRF) intends to immediately commence a new planned work program on its historic Kenville Mine Property located near the City of Nelson in southeastern British Columbia. The initial work program is along a NW/SE trend, originally discovered by Teck Corp operating as a option joint venture partner in 1995 and 1996. The Company's 2007 program will be supervised by Glen Macdonald, P.Geol, a qualified person as defined in NI 43-101.

The Company will announce further work programs as they are implemented.

Gold Standard Resources Corp., Babylon Enterprises Ltd., Foaming Holdings Ltd., Glacial Holdings Inc., and Tracer Enterprises Ltd., former optionees under an Option Joint Venture Agreement with Anglo Swiss respecting the Kenville Mine Property, have been notified by Anglo Swiss of its position that the Option Joint Venture Agreement is at an end. Further to the disclosure contained in the Anglo Swiss news release dated January 26, 2007, several of these optionees have commenced a lawsuit against Anglo Swiss disputing this position. Anglo Swiss considers the claims made in this lawsuit without merit.

On a related matter, Terasen Gas has recently commenced a lawsuit against the former optionees alleging certain of the work they performed on the Kenville Mine Property adversely impacted its pipeline that runs through an easement on this Property. Anglo Swiss has also been named a defendant in this lawsuit as the owner of the Property.

On behalf of the Board,

Len Danard
President & CEO

FORM 51-102F3

MATERIAL CHANGE REPORT

ITEM 1. Reporting Issuer

Anglo Swiss Resources Inc. (the "Company")
#309 – 837 West Hastings Street
Vancouver, British Columbia, V6C 3N6
